

An Affordable Investment in Employee Well-Being Makes a Big Impact on Employee Morale

When employees believe their company strives to promote their success and well-being, they are motivated to work harder, stay focused and take pride in their jobs. One of the best ways to support a healthy work/life balance is by assisting employees when they experience breakdowns in child and adult care.

CorporateCARE Solutions partners with employers to provide national Backup Child and Adult Care services for employees. This valuable benefit helps ensure employees no longer miss work unexpectedly due to family care breakdowns. Knowing their loved ones are in the care of a professional enables them to be present and productive employees.

Corporate CARE Solutions' national network of Care Providers is readily available to assist your employees in their home, hotel *if traveling for business* or anywhere in the U.S. their elderly loved ones reside. Our *My Choice* program provides employees the additional option of selecting the daycare center or caregiver of their choice. Our extensive experience allows us to create an individual corporate care program that best meets the specific needs of your organization.
